

Week 2 Practicum Experience: Health Promotion Data Collection and Analysis Template

Name: [REDACTED]

Date: March 15, 2026

Practicum Experience Topic: Mental Emotional Health

Community (City, County, and State): El Paso, Texas

Section 1: Demographic Data Collection

Demographic data describes population characteristics like age, gender, race, ethnicity, income, education, and location.

Directions:

1. Visit the Census Data Website: <https://data.census.gov/>
2. Find County-Level Data:
 - In the search bar, type the name of the **county** where you will complete your practicum experience.
 - Press Enter or click the search icon.
 - Click View Profile on the right side of the page.
 - Review the results and locate the data needed to fill out each section of your table.
3. Find State-Level Data:
 - Repeat the same process for any missing state data, but this time search for the **state** where your practicum will take place.
 - Click View Profile on the right side of the page.
 - Use the data provided to complete the corresponding sections of your table.
4. Find National-Level Data:
 - Finally, search for the **United States (U.S.)** to access national data.
 - Click View Profile on the right side of the page.
 - Use this information to complete the U.S. section of your table.
