

**Week 5: Select one of the following trends (or another trend of interest to you). Discuss your understanding of this trend in healthcare and its relevance for INS practice. As an INS leader, what recommendations do you have for managing these impacts?**

- Increased use of artificial intelligence
- Shared decision making
- Data analytics and data science
- 3-D printing
- Patient portals and consumer health informatics
- Magnet recognition program
- Cloud computing
- Secondary data use
- Informatics nurses in the executive suite
- Interdisciplinary practice
- Patient engagement
- Closing the digital divide
