What actions contributed to this shift? *This will be on your exam*</p> <p>How do mental health diagnoses affect the average life expectancy? What factors are associated with this variation in the average life expectancy?</p> <p>ANA definition of PMHNP role</p>
--------	---

Consensus Model

APRN roles and specialty areas- know the PMHNP scope and roles.

you will have questions that include a scope or role description. You will need to select the appropriate role or scope. Have a clear understanding of the unique qualifications of each, as some of these are similar. This will help you to determine the best response.

For example- A PMHNP completes a 360-degree review to provide feedback to a colleague. Which standard is being demonstrated?

PMHNP practice settings- where can a PMHNP work? (According to Scope and Standards book)

Ethics and ethical principles regarding

- Social media
- Hospitalization

Disparities in mental health treatment- know the types of disparities.(ANA p.29-30) and the barriers (wk. 1 lecture)

Substance abuse, recovery, and wellness- federal priorities, affected populations. Which age groups are affected most?

Review the barriers to access to mental health care in the book and the explore section.

	<p>Review the impact of mental illness statistics. How does mental illness affect a person's lifespan?</p> <p>Relative risk- review the explore section definition and be prepared to apply it to a clinical scenario. *This will be on boards*</p>
Week 2	<p>Be able to identify and apply the Standards of Psychiatric Mental Health Nursing Practice Advanced Practice Competencies</p> <p>What is the purpose of the Standards of Practice?</p> <p>Review the Explore section Standards of PMHNP practice competencies. Be able to differentiate between these.</p> <p>Standards of Psychiatric-Mental Health Nursing Practice</p> <p>Standard 1. Assessment</p> <ul style="list-style-type: none">• Competencies• Additional Competencies for the Psychiatric-Mental Health Advanced Practice Registered Nurse <p>Standard 2. Diagnosis</p>
