Height	Weight	Allergies (and reaction)
5'9	150	Medication: none Food: shellfish-anaphylaxis Environment: none

## History of Present Illness (HPI)

**Chief Complaint (CC)** Getting care through the VA but because of shortage of providers they are allowing me to receive care outside of the VA. Depression and Bipolar disorder

**HPI**  
Pt present today to continue to Psychiatric care. Pt reports history of Depression and Bipolar for which he is actively taking medication for. Pt notes that he was dx with bipolar disorder in 2000 after working several shifts as a physician in the military and had a break down. Pt reports that he was diagnosed with ADD in 1998 but was never evaluated nor medicated for the disorder. About six months ago pt wife as well as himself notice that he was a little depressed. Pt was rx Wellbutrin for condition in which he notice that his sleep and mood have improved. Pt report good appetite and exercise 2-3 times per week.
