History of Present Illness (HPI)

Chief Complaint (CC) "I'm here to be seen by another provider due to VA having a shortage of providers"

HPI

K.S is a 54 year old male that presents to clinic for continuation of treatment for depression and bipolar. Has been seeing providers at the VA every 3 months but due to recent shortage he has permission to seek outside providers for treatment. Has been diagnosed with depression for about 20 years with current treatment of Wellbutrin and lithium. Reports mood has been stable since starting new treatment of Wellbutrin 6 months ago. Appetite good. Sleeps well. Reports need for medication refill in the upcoming weeks due to changing providers.
