Directions

- For Module 1, fill out the learning agreement with self-identified measurable, specific goals to meet course outcomes and initial plans to meet those goals; review the goals and plans with your mentor.
- When writing your goals you need to review the Clinical Nurse Leader (CNL) competencies document located **in the toolbox**. Please focus your goals on the following areas and link them to a CNL competency:
 - Quality Improvement
 - Interdisciplinary Team Care
 - Patient-Centered Care
 - Evidence-Based Practice
 - The Utilization of Informatics
 - Care Coordination / Outcomes Management
- The agreement **should be updated each week** to reflect completed goals, additional goals, or changes to the plan dictated by the actual experience or revisions suggested by your professor and/or mentor.
- At the end of Module 7 of the practicum experience, evaluate the success with your mentor **using the metrics you identified** and obtain the mentor's signature at the bottom of the agreement.
- Save this form as a Word document, and enter required information directly onto it; submit the completed Learning Agreement in Modules 1 and 7.

Learning agreement consists of three sections.

- I. Student Learning Outcomes Table
- II. Signatures and mentor approving the plan (Module 1)
- III. Signatures and mentor verification (Module 7)

Note: Each section in the table must be completed and the signatures **must be included prior to submission for faculty approval**. If you have more than one mentor, please include each of them, provide their information on page 1, and have them each sign.

Points
