

NR668 Week 1 Assignment: Certification Study Plan

Week 1 Certification Study Plan Worksheet

1. Summarize your performance in each domain in 1-3 sentences.

A. Nervous System & Brain Anatomy

I performed well in the Nervous System & Brain Anatomy domain, scoring 93.75%. This score reflects a strong understanding of neuroanatomy, brain function, and the relationship between neurological processes and psychiatric conditions. I feel confident in my foundational knowledge in this area.

B. Assessment & Advanced Practice

Assessment & Advanced Practice was one of my strongest domains, with a score of 95%. This demonstrates strong skills in patient assessment, diagnostic reasoning, and advanced practice clinical decision-making. I feel comfortable applying assessment findings to guide appropriate treatment planning.

C. Psychopharmacology

I scored 83.33% in Psychopharmacology, showing a solid understanding of psychiatric medications and treatment management. While I performed well overall, this domain showed that I could continue strengthening my knowledge of medication side effects, interactions, and prescribing considerations.

D. Adult & Geriatric Disorders

In the Adult & Geriatric Disorders domain, I scored 84.48%. This indicates a good understanding of common psychiatric disorders affecting adult and older adult populations. I would benefit from additional review of differential diagnoses and management approaches for more complex disorders.

E. Pregnancy & Pediatric Mental Health

I performed strongly in Pregnancy & Pediatric Mental Health with a score of 92.86%. This score reflects a strong understanding of mental health conditions, assessment, and treatment considerations in pediatric and perinatal populations. I feel confident in my ability to recognize age-specific psychiatric concerns.

F. Substance Use Disorders
