

NR668 Week 1 Assignment: Certification Study Plan

Week 1 Certification Study Plan Worksheet

Name:

Prof.: Hanna Sue

Date: 3/09/2025

1. Summarize your performance in each domain in 1-3 sentences.

A. Nervous System & Brain Anatomy

I had an overall score of 100% with 16 out of 16 correct in this domain, demonstrating a strong understanding of neuroanatomy and its relevance to psychiatric disorders. This indicates confidence in my ability to identify brain structures, their functions, and their impact on mental health.

B. Assessment & Advanced Practice

I had an overall of 85% with 17 out of 20. My performance in this area was strong but definitely a lot of room for improvement. I will focus on refining my assessment skills, differential diagnosis and advanced practice decision making

C. Psychopharmacology

I had an overall of 87.50%. I demonstrated a comprehensive understanding of psychiatric medication, including mechanism of action, the contraindications, and side effects. But also have a lot of room for improvement, especially in medication identification as well as prescribing.

D. Adult & Geriatric Disorders

I had an overall score of 86.21%. I demonstrated some understanding in diagnosing and managing psychiatric conditions in adults and older adults. But I will be reviewing missed questions which will help me reinforce my knowledge in these areas I didn't exactly do well on

E. Pregnancy & Pediatric Mental Health
