

NR668 Week 1 Assignment: Certification Study Plan

Week 1 Certification Study Plan Worksheet

1. Summarize your performance in each domain in 1-3 sentences.

A. Nervous System & Brain Anatomy

I performed very well in this domain, answering all questions correctly (100%). This demonstrates my strong understanding of brain structures and the neurological foundations necessary for practice.

B. Assessment & Advanced Practice

I scored 65% in this area, indicating a fair understanding of assessment skills, but also highlighting room for improvement in advanced practice application and clinical reasoning.

C. Psychopharmacology

With a 70.83% score, I demonstrated good baseline knowledge of medications, but I need to strengthen my understanding of mechanisms, side effects, and medication selection for complex cases.

D. Adult & Geriatric Disorders

I scored 84.48%, showing strong knowledge of mental health disorders across the lifespan. I need to refine management strategies for geriatric populations and comorbidities.

E. Pregnancy & Pediatric Mental Health

My score was 78.57%, reflecting solid knowledge, though I would benefit from a deeper review of safety considerations, developmental disorders, and psychopharmacology during pregnancy and childhood.

F. Substance Use Disorders

I performed well, scoring 100%, which indicates a strong understanding of diagnosis and treatment approaches for substance use. Continued reinforcement will help retain this strength.

G. Group & Psychopharmacology
