

NR668 VISE Mock Interview Script and Diagnosis Guide

Mock Interview Script

This mock script simulates a VISE encounter. Assume the faculty is role-playing a client. Your role is to conduct the psychiatric evaluation, diagnose, and formulate a treatment plan.

1. Introduction and Chief Complaint

PMHNP: Hello, I'm Crystal Marshall, a psychiatric nurse practitioner. Thank you for meeting with me. What brings you in today?

Client: I've been feeling really down lately. I can't get motivated to do anything.

2. History of Present Illness

PMHNP: How long have you been feeling this way?

Client: It's been about two months now. I have no energy, and I can't concentrate at work.

PMHNP: Have you experienced any changes in sleep or appetite?

Client: I'm sleeping a lot more than usual, and I don't have much of an appetite.

3. Psychiatric History

PMHNP: Have you ever felt this way before or seen a mental health provider?

Client: Yes, a few years ago I had a similar episode and took Zoloft for a while.

4. Medical History

PMHNP: Do you have any medical conditions or take any medications?

Client: Just high blood pressure, I take lisinopril daily.

5. Family History

PMHNP: Is there any history of mental illness in your family?
